

	Operating Mode	Operating Distance	Bass Boost	Auto Tune	Transmission Frequency	Speaker Power Source	Output Power	Channels	Dimensions (HxWxD) mm
AQ Stereo Wireless Speakers	Stereo/Mono	100m	•	•	863-865MHz	Battery/Mains	3W RMS	3	233 x 175 x 75
Goodmans Wireless Speakers	Stereo/Mono	100m	•	•	863-865MHz	Battery/Mains	3W RMS	3	200 x 90 x 88
Rimax Wireless Speakers	Stereo	50m	•	•	863-865MHz	Battery/Mains	5W RMS	3	192 x 94 x 99
Addicon Stereo Wireless Speakers	Stereo	100m		•	863-865MHz	Mains	5W RMS	3	150 x 130 x 240
Arkon Stereo Wireless Speakers	Stereo/Mono	100m	•	•	863-865MHz	Battery/Mains	3W RMS	3	200 x 90 x 80

**Operating Distance:** Quoted figure is maximum in line-of-sight. This distance will be less when travelling through walls, ceilings, etc.

**RMS:** Root Mean Square. The most realistic measurement of the output of an amplifier. The higher the figure, the more powerful the unit.

**Channels:** The number of unique channels the transmitter can broadcast. Useful if similar devices use the same channels.
