

soak with your
favourite soap!

splash

'Splash' The Ultimate Indulgence.

A fantastic high quality widescreen TV, that can
be safely fitted into bathrooms and kitchens.

Soak with your favourite soap or immerse yourself with Mr Darcy. The super pin-sharp, LCD screen will allow you to lay back in the bath, whilst enjoying your favourite TV or movie. Naturally, the water resistant remote control can be safely used with wet hands, so even changing channels requires no effort.

Oh, and did we mention how easy it will be to get the kids into the bath?

'Splash' Ultimate Indulgence or Practical Luxury?

splash 17" Widescreen LCD TV

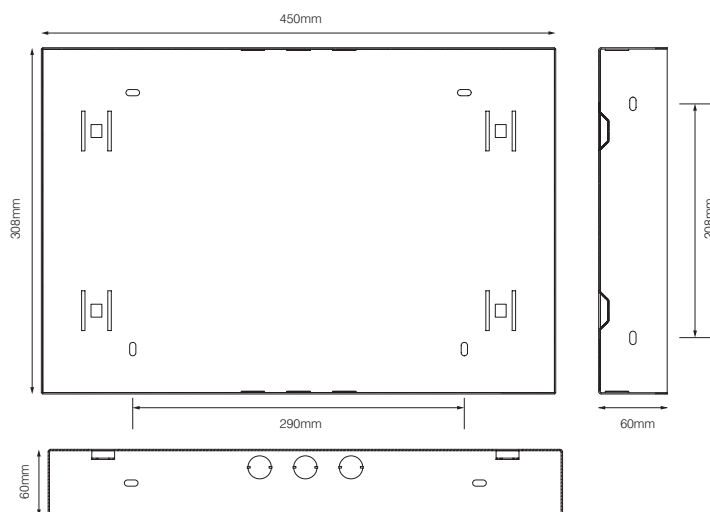

Features

- 17" high quality LCD screen
- Touch sensitive Power and Standby button
- Heated screen to prevent condensation
- Water tight seal front and rear to adhere to all current wet room electrical regulations (IP66)
- Compatibility with Systemline Modular local input
- Simple to install. Supplied as a sealed unit, so no dust penetration between the glass and screen
- Interoperability with Hotel 'Pay per view' systems

The television also boasts integration with Systemline Modular via a direct CAT5 connection into either a hub or a speaker. This allows the screen to act as a local input within the bathroom, linking high quality Modular audio to the screen
